Dear Deepkamal,

We can provide you Interim transcript only once the grades of Pre Term are released. You can apply through Registrar's office portal once the grades are released.

Regards,
Registrar's Office

Thank you for response – I need a bona fide letter from IIDS ISB which says that Foundation term is completed and I have qualified the Term,

As per my organisations policy I need to submit term clearance proof then only the submitted fee will be reimbursed by company, and it has to be done before year-end else budget will lapse – please help.

Hi Shruti,

Trust you are doing well,

Can you please tell me who is the right person to discuss about Fee submission and Term completion proof?

I need Term completion proof from ISB, based on which my fees will be reimbursed by my organisation; and due to budgetary issues I need to get this before end of year.

Kindly advice.

Thank you for response, in this regard I'd like to request not more than 15 minutes of your time for a short conversation on zoom/call.

I'd like to explain why it's important for me to have Term pass certification before 15th Dec 2020, and I'd like to discuss way around.

Kindly suggest a suitable time slot, I'll send calendar invite.

Regards,
Deep Kamal Singh

Hi Hemanth,

Trust you are doing well,

I am writing to know the tentative dates when the results will be shared with us for PSR, Python and Maths Bootcamp exam/assignments – I am required to update my results for this term along with term clearance record, before Dec 15th 2020 to get paid fee refunded by the Company I am presently employed at (Adobe Inc)

Kindly let me know if results date may go beyond 15th Dec 2020.

Thanks for your time, once again wishing you and everyone around is safe and healthy in these trying times.

Subject: AMPBA Co 2021W Term 1: Way Forward

Dear Students,

Thanks for sharing your preferences for the term 1 courses. Please find below the screenshot of the poll result summary. Majority of the class opted to wait and start the term 1 courses on-campus in January 2021. In view of this, we are canceling the November residency and we hope to start your first residency on-campus in January 2021 as per the Government on India guidelines. Meanwhile, we will deliver the Data Visualization course which is anyway supposed to be online. Since you now have two months gap, we suggest you to think about taking an additional course online over the next couple of months apart from the Data Visualization course so that you will have less workload in Jan & Feb 2021. We will send out a poll soon to understand the class preference for taking an additional course (Statistical Analysis 1) online.

4. How do you want to proceed with Term 1 courses?

[More Details](#)

- I would prefer to complete all ... 8
- I would prefer to wait and star... 79

Thanks,
Hemanth.

Subject: Re: Meeting at 7 PM on 17th October, 2020

Dear Students,

Thank you for attending the meeting on 17th Oct. Please find below the two feasible options discussed during the meeting. We request you to give your preference among these options **by 21st Oct (Wednesday)** via https://forms.office.com/Pages/ResponsePage.aspx?id=Q-TapKs4SkCzMZ0dM3_PN_-E6wGv3VNove1Ep9wvdlUQ0FGVke4TU1XVDJVREICR0tSWTRXWkpDMS4u

Option A: Start term 1 courses online

In this option, the programme can be completed on-time without delaying graduation. Nov 18 to 22 are the dates that were proposed for term 1 residency on campus. Most of you might have taken leaves (3 days) for the residency. If we can utilize these dates, most of the online sessions can be completed by mid-December and you will have around sufficient time for self-study and working on the assignments. Please find below the detailed schedule (tentative). Unlike classroom residency where you must sit through classes from 7:45 AM to 5:30 PM followed by industry talks till 7 PM, as per this plan, you may have to go through overall 5 hours per day i.e typically morning 2 hours + evening 3 hours .

Also, as discussed, in this option, there will be no compromise on the number of residencies. A compensatory workshop will be planned on campus during the capstone period to cover the topics as per class preference. Additionally, we are proposing the below measures to make the online courses more effective:

- Since students may find it difficult to follow the online delivery, we propose to cover 10 hours of content of a course in 12 hours.
- We are proposing a mandatory 15 minutes break during the sessions to increase the attention span of the students.
- We are requesting faculty to be available for office hours (3 hours) to resolve the student's queries (if any). This will be in addition to the lectures.

Tentative Schedule:

Date	Time	Course	Session
Nov-14	8 AM to 10 AM	Data Visualization	Session 1
Nov-15	8 AM to 11 AM	Statistical Analysis 1	Session 1
Nov-18	8 AM to 10 AM	Data Visualization	Session 2

Dec-20	8 AM to 11 AM	Big Data Management 1	Tutorial

Option B: Wait and start term 1 courses on-campus in January 2021

In this option, your graduation will get delayed by 2 months. Meanwhile, we can complete the Data Visualization course online in Nov & Dec as this course is anyways supposed to be online. The remaining 4 courses can be delivered on-campus in January 2021. Please find below the tentative schedule for this option.
